

SGP Series

Intuitive Operation

Plug and play design for easy set up

Simplifies Maintenance

Built with high-efficiency components and few wear parts

Production Versatility

Designed for integration into many industries and applications

Maximizes Productivity

Applies up to 65 straps per minute

SGP Series

Plastic strapping machines

■ Walk-up

The SGP walk-up machine, for small to large packed goods, can be operated from either side of the machine.

■ SGP 2000/4000 Series

■ Small anvil

The SGP small anvil plastic strapping machine is designed for small, irregular packages.

■ SGP 4400 Series

■ Automatic

The SGP automatic machine delivers a fully automated inline solution or can be used as a stand-alone machine when combined with idle conveyors.

■ SGP 2330/4330 Series

■ Side-seal

The SGP side-seal strapping machine, available as a stand-alone or fully automatic inline solution, is for products that emit small debris.

■ SGP 4400 Series
